

Tremont Medical Clinic
2a-2f Tremont Drive, St. Catharines ON L2T 3B2
Telephone 905-687-8887 Fax 905-641-3693

Welcome to the Tremont Medical Clinic in St. Catharines, ON.

Everything will be provided for you in our system: staff support, billing, chaperone for PAP smears, supplies etc. We will help you establish and run an efficient and profitable family practice. We will guide and advise you regarding every aspect of the practice of medicine in Ontario. We can start generating a patient roster for you, so that when you arrive patients are already assigned to your practice. We will be able to keep you busy right from the time you get here.

At the Tremont Medical Clinic, we use electronic medical records. We use macros for our notes when possible or we type our own encounter notes. This makes for very efficient and accurate record keeping. As well it audit proofs our clinical notes.

We do office procedures such as sutures, lump and bumps. PAPs are done by family doctors in Ontario. However, Obstetricians in St. Catharines frown on shared care.

We can receive stat blood work and x-rays the same day if done early enough in the day. If a patient requires immediate admission, than they are sent to one of the 2 emergency rooms. To ensure continuity of care, a consult note is sent to the ER or the specialist. These consult notes are easily produced utilizing our computer system macros. If patients are admitted to one of the 2 exiting hospitals, they are followed by a hospitalist and upon discharge we take over care. This system is very convenient for our lifestyles.

We encourage our patients to call early in the day for same-day appointments and we will fit them in. If an after hour problem arises that cannot wait until the a.m., they are instructed to go to the walk in clinic or Emergency Room if needed. A walk in clinic for our patients is offered through our office daily from 7:00 am – 8:30 am, Monday to Friday; and Monday, Tuesday and Thursday evenings from 5:00 pm – 7:00 pm; as well as Saturday from 7:00 am – 10:00 am.

Saturday and Sunday clinics can be arranged for you, if you wish. Emergency Room shifts may be available in St. Catharines and smaller hospitals within _ drive.

We will help you get set up with accountants, lawyers etc that have helped us tremendously.

Our philosophy on work is:

We work very hard at our family practice, working 35 hours per week. We then take the rest of the time off to enjoy our families and to pursue other aspects of life, to help maintain the balance in life and combat work stress.

Do not hesitate to ask further questions or to contact us if you need more information.
